

Shaping Skills for Life

Let's Get It Write! Handwriting Club

Is your child having difficulty with any of the following handwriting skills?

- Drawing basic lines and shapes
 - Coloring within the lines
 - Holding a crayon/pencil properly
 - Forming letters properly
 - Reversing letters and/or numbers after 1st grade
 - Producing legible written work
 - Demonstrating proper letter and/or word spacing
 - Writing in a timely fashion

If so, your child may have a complex handwriting problem. The Let's Get it Write! Handwriting Club, led by pediatric occupational therapists with Wolfson Children's Rehabilitation, can help.

Our program offers small-group instruction using a multisensory approach for children ages 4 to 12 using arts, crafts and movement activities to promote age-appropriate handwriting.

For more information on Let's Get It Write! Handwriting Club and how to schedule your child's screening:
